Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. In response to the 05/19/05 Office action that suspended the instant application under 37 CFR 1.103(a) for a period of 6 months, Mr. Stacey Slater, Applicant's Representative, informed the Examiner by telephone message on 1/19/06, that they would like continuance of the prosecution of the application.

2. In the 3/28/05 Amendment submitted by the Applicant, along with the request for suspension of action, claim 1 was directly amended and claim 2 was canceled. As to Applicant's query regarding the status of claims 10-12, which Applicant noted were not discussed in the 11/24/04 Office action, the previous Examiner of the application informed the current Examiner that these claims were inadvertently overlooked. Apparently, the page containing claims 10-12 (which was separate from the page containing claims 1-9) was not received by the previous Examiner at the time he conducted the examination.

Accordingly, the 11/24/04 Office action is withdrawn and replaced with this one.

Election/Restrictions

3. Applicant's amendment necessitated this restriction requirement. This application contains claims directed to the following patentably distinct species of the claimed invention: Markush group of cathode material (e.g., see claim 1).

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is

finally held to be allowable. For example, Applicant may elect palladium alone or platinum alone, etc. Currently, no claim appears to be generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Rick Palabrica whose telephone number is 571-272-6880. The examiner can normally be reached on 6:30-5:00, Mon-Thurs.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jack Keith can be reached on 571-272-6878. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
